Left: values reported in the MAGICIAN paper (different runs / starts / evaluation code; reference only). Right: re-evaluated by us (official MAGICIAN code + evaluator, settings starts 0-4, 100 moves); † = MAGICIAN re-evaluated. Bold / underline: best / second within the right group. n/a: St. Sofia Church does not load in the frozen evaluator. *Paper-reported FisherRF average; the mean of its 15 rows is 0.772.
